

BASSER CENTER FOR BRCA

REVOLUTIONIZING BRCA-RELATED CANCER RESEARCH & CARE

The Basser Center for BRCA at Penn Medicine's Abramson Cancer Center is the first comprehensive center for the research, treatment, and prevention of BRCA-related cancers. Devoted to advancing care for people affected by BRCA gene mutations, the Basser Center's unique model provides funding for collaborative research, education, and outreach programs around the world.

“

The Basser Center is focused on supporting BRCA-affected families, increasing awareness, improving treatment, and accelerating research to find a cure. The Basser team will not stop until there are better choices for families, and most importantly, game-changing preventions.

BASSER CENTER PROGRAMS & RESOURCES

The Basser Center for BRCA offers a wide variety of resources for individuals and families with BRCA gene mutations. We provide innovative and engaging ways to find support—including in-person and virtual events, and a suite of educational programs designed for all individuals. Please visit [Basser.org](https://www.basser.org) for more information.

BRCA OVERVIEW & EDUCATION

- **[Everything you need to know about BRCA](#)** including frequently questions answered by specialists.
- **[Check out our library](#)** of panel discussions, videos, BRCA patient stories, blog posts, and our **[“How to Prepare for Breast Surgery”](#)** fact sheet.
- Review our **[BRCA glossary](#)** of terms.
- **[View the latest open clinical trials.](#)**

LATINOS BRCA

Latinos & BRCA is a partnership between the Basser Center and many collaborators which was created to raise awareness, provide resources, and support the Latino community around BRCA-related cancers. **[See our suite of Spanish-language resources and videos focused on the Latino community. Basser en español.](#)**

BLACK BRCA

Black & BRCA is a collaboration between the Basser Center and our team of patient advocates, researchers, and healthcare professionals offering tailored resources and support to the Black community. Black & BRCA hosts educational events and informative panel discussions.

“The value of the Basser Center can’t be overstated. From our first visit, it was comprehensive and complete. We were not left in the dark in any way, and the high level of skill among the team is apparent. Knowing my daughter and son are managing their risk of cancer in a proactive way, with top experts gives me relief.”

BRUCE GOBERMAN, PATIENT

MEN & BRCA PROGRAM

Men can carry and pass down a *BRCA1* or *BRCA2* gene mutation. Men with a gene mutation are at an increased risk for developing prostate, pancreatic, and breast cancers. Our [Men and BRCA fact sheet](#) captures frequently asked questions about *BRCA1* and *BRCA2* gene mutations.

YOUNG LEADERSHIP COUNCIL (YLC)

With over 150 international members, and growing, the [YLC](#) is a dynamic group of young adults affected by a BRCA mutation. Together, they lend support and raise awareness about the latest advances in BRCA-related cancer research and care, share how to navigate as a young adult with a BRCA gene mutation, and help advance the mission of the Basser Center. [Check out the YLC Fact Sheet.](#)

PARENTS LEADERSHIP COMMUNITY (PLC)

The PLC is a group of parents supporting their children who are, or may be, faced with a *BRCA1* or *BRCA2* mutation. This community serves as a supportive forum, and a resource to stay informed about the latest advances in BRCA research and care.

WE TAKE CANCER PERSONALLY.
